The Elden Ring is an action RPG developed by the company, Bluepoint Games, and published by Square Enix. ELDEN RING GAME'S DIFFICULTIES. Story In the Lands Between, there is a world that exists separately from the worlds in other dimensions. When a great evil surges forth from the Deathstalker lands to the east, the other dimensions collapse and a great number of many worlds are wiped out. At this time, a prophecy foretells the coming of the Elden Ring. The El Nido Continent is separated into three continents and named for the first people to inhabit it. Each continent has its own unique features and interesting stories.

Barrier - This continent is surrounded on all sides by a wall that demarcates the continent from others and that helps protect it from outside dangers. Although the wall, if compared to the other continents in the Lands Between, is thick, there are gaps in it. The people of El Nido explore the continent by traveling on foot or by wagon. Through the gaps, monsters called Mogs gather and the places where the gaps are located are secret outposts that cater to their needs.

Elven Province - The Elven Province is a large continent located north of the Barrier Continent. It is mostly flat, full of broad lands, and can only be travelled by humans in vehicles and by foot through the northern trails. Compared to the other continents, there are less dramatic landmarks on the wilderness and the people in the province are wild and restless. Although there are beautiful places there such as forests and lakes, the people of the province often resort to murder, theft, and plundering as their main means of living. This is because there are far more wild tribes than the elves in the province, and that many of the people in the province are semi-wild themselves.

Stone Land - This continent is located in the south of the Barrier Continent and is long and narrow. Its ground is flat and its mountains are low. It is also because the region surrounding it is the region where the stones of El Nido are located. With a population of people who are vain and wary of the outside world, the Stone Land is a land covered with stone in the mountains and hills. The people that reside there are known as Nomads and they rarely mix with others. Despite the low population, the Stone Land is extremely fertile, and it is also a safe and stable land where the people can achieve
