

Sep 10, 2021 - Request codes are only needed if you have a perpetual software license and need an activation code to manually activate the software on your computer... For some reason Microsoft does not provide this request code, but you can use this code on your website by adding your software license to it. If you are using the free version of the software, you can enter this code to activate the software again. If you are running a paid version of the software, you may have to enter multiple codes because there may be different codes depending on the product version.
